

## Android Application Development HW5

108820018 電資三 蔡翔宇

### 03.2

1. Tests that are compiled and run entirely on your local machine with the Java Virtual Machine (JVM).
2. `com.example.android.SimpleCalcTest` (test)
3. `@Test`

### 04.1

1. Drag an `ImageButton` to the layout editor.
2. Add the `android:onClick` attribute to the `ImageView` in the layout and use it to call the click handler in the Activity.
3. The click handler method must be public, return void, and define a `View` as its only parameter.
